

PV Voltage Fault

Alarm Attribute

Alarm name	Alarm Severity	Alarm Category
PV Voltage Fault	Emergency Alarm	Inverter alarm

Possible Cause

Cause ID	Possible Cause
1	PV voltage fault: PV voltage exceeds the allowed range.

Suggestion

- 1.Check if the PV panel voltage exceeds the MPPT range. If the voltage is too high, it is recommended to reduce the number of PV panels appropriately.
- 2.If the issue remains, provide the inverter's SN number to the SolaX technical support team for further analysis.
